

***AIA SA is pleased to invite you to join us  
in a great evening of networking and discussion***

**AND**

***Presentation of the 2019 Jim McColl Young Consultant Award***

**Topic: How Australian agriculture is changing  
and how Elders needed to change with it**

**Speakers:**

**Mr Graham Page, Head of Technical Services - Elders Rural Services**  
*Thomas Elder Consulting (TEC) has been born from a demand for Australian farmers to have access to technology and research, as well as the ability to translate findings into meaningful farm planning strategies. Although operating independently, TEC has been built by Elders. TEC will operate in addition to advisory services already offered to the crop and livestock sectors by technically qualified staff at Elders branches Australia-wide.*

**Dr John Evans, Head of Thomas Elders Institute**  
*The Thomas Elder Institute (TEI) has been established by Elders to engage in research, development and extension relevant to Australian agriculture. The aim of TEI is to strategically invest in research projects and partner with research providers and industry to facilitate the extension and commercialisation of research and new technologies. TEI will maintain a level of independence from Elders commercial operations and work to provide benefit to the agricultural industries in Australia.*

**Drinks and nibbles provided.**

**Please register:** **To assist us with catering, please register by  
Thursday 15 November at the latest at**
