

More than the eye can see

Drones and satellites in agriculture Discover practical uses and benefits now!

Join us for a networking dinner, drinks and interactive presentations on the use of remote images in agriculture. Hear from commercial operators and a Tasmanian farmer who's already used the tech and made it pay.

There'll be a live demonstration of turning a plant-health image into a zone map, loading it into a spreader and variable-rate spreading in action.

Presenters from DroneAg, AgLogic, Datafarming and Altrac Spreading.

- WHEN:** 4th October, 2:00-9:00pm
WHERE: Brickendon Estate, 236 Wellington St Longford
TICKETS: \$45 Ag Institute members
\$80 non-members
\$45 students

Purchase tickets online at <https://tas.currinda.com/register/event/1844>

Or EFT to Ag Institute Australia BSB 083-184 Acc 155815781 with your name and "Tas"
