

Are your employees members of the Ag Institute Australia?

Your business success relies on your employees to:

- › be up to date with industry and research trends;
- › act professionally within your business, with colleagues;
- › research new technologies, help farmers build their businesses and maintain biosecurity and farm resilience
- › competently represent your business wherever they go.

**Ag Institute Australia helps your employees deliver.
Make your business stand out. Join the AIA today.**

INSTITUTE
AUSTRALIA

Who we are: Ag Institute Australia (AIA) is the peak body representing the interests of Agricultural and Natural Resource Management professionals.

Our members

- › apply their wide knowledge base and expertise across Australia and overseas.
- › work in public and private advisory positions, not for profits, policy and education groups
- › research new technologies, and help farmers build their businesses, maintain biosecurity and farm resilience
- › are involved across the industry, seeking to build industry capability and sustainability
- › aim to enhance Australia's economy and sustain its environment
- › hold appropriate tertiary qualification(s), or, have achieved professional status and a position of responsibility through practical work.

We offer

- › relevant continuous learning and skill updates
- › accreditation standards and professional development recognition
- › events in regional and capital city locations
- › "Weekly Alert" emails containing a snapshot of industry issues, events and opportunities
- › Access to "Members only" section with job advertisements, PD tracking and more
- › opportunities for leadership development
- › discounted event fees for members
- › special interest group opportunities
- › Group Professional Indemnity Insurance Scheme
- › advocacy and important contributions to public policy
- › our Code of Ethics

Ask how your employees can receive PD recognition and make the step towards becoming a Chartered Agricultural Professional
