Notes:

1. The categories and associated membership fees are subject to review by the AIA Board and will be confirmed later in 2018.

Alternative Pathways to Meeting the AQF 9 Qualifications Requirements for Chartered Scheme

As defined in the Australian Qualifications Framework (AQF), applicants for the chartered scheme i.e. at the level of AQF 9 or above, will be expected to be able to demonstrate the following:

Graduates at this level will have specialised knowledge and skills for research, and/or professional practice and/or further learning.

Graduates at this level will have advanced and integrated understanding of a complex body of knowledge in one or more disciplines or areas of practice.

Graduates at this level will have expert, specialised cognitive and technical skills in a body of knowledge or practice to independently: analyse critically, reflect on and synthesise complex information, problems, concepts and theories, research and apply established theories to a body of knowledge or practice, interpret and transmit knowledge, skills and ideas to specialist and non-specialist audiences.

Graduates at this level will apply knowledge and skills to demonstrate autonomy, expert judgement, adaptability and responsibility as a practitioner or learner.

The following table sets out the reasonable expectations that a successful chartered applicant must be able to demonstrate as a sector leader in agriculture. It is expected that the range of activities will change over time and that university courses will become available to assist chartered applicants to meet the requisite qualifications.

Alternative Pathways

Pathway Option	Weighting (100 points required in total)
Member of board or advisory body in a relevant agricultural or NRM organisation	5 points per year per appointment over the previous 5 year period (50 points max. allowable)
Executive or head of department of a company or Government agency	10 points per year at this level over the previous 5 years (50 points max. allowable)
Lead author, author or organisational lead for Government submission on an agricultural or related topic (eg an inquiry/review)	10 points per submission over the previous 5 years (50 points max. allowable)
Lead author or author on an industry guide or book relevant to agricultural sector	10 points per publication per year at over the previous 5 years (20 points max. allowable)
Peer reviewed articles published on an agricultural topic	5 points per publication (one allowable per year) for the previous 5 years (25 points max allowable)
Research lead on an externally recognised agricultural investigation	5 points per program over the previous 5 year period (25 points max allowable)
Expert witness in legal proceedings relevant to agricultural sector (eg court, inquiry, royal commission) or professional report (to be de-identified and kept confidential)	5 points per proceeding (2 allowable per year) for the previous 5 years (25 points max. allowable)
University lecturer or guest lecturer relevant to agricultural sector	5 points per lecture for each year for each of the past 3 to 5 years (20 points maximum allowable)

Notes:

1. Based on a weighting system of 100 points required over the most recent 5-year period.
2. Evidence for each requirement met must be provided as part of the chartered application.
