AND TECHNOLOGY**

Bringing The Elements Together

Agricultural Science

Agricultural Science

Agricultural Science is the official journal of the Australian Institute of Agricultural Science and Technology (AIAST), published three times annually.

The journal is an independent and authoritative resource for professionals in agriculture and natural resource management to inform each other and the general community of significant scientific developments in their relevant disciplines. It also contributes to its members' own professional development by linking them to membership networking opportunities and activities conducted on their behalf.

It accepts invited and contributed articles, refereed papers, CEO and National President's reports, divisions' events' reports, Letters and book reviews. Opinions expressed in *Agricultural Science* are those of the authors and not necessarily those of AIAST, unless otherwise stated. Publication of an advertisement does not imply endorsement of the products by the AIAST. ABN 70 004 227 810

Scientific Editor

Dr. Peter Carberry, CSIRO

Managing Editor

Peter Finlayson
